"...However, this achievement cannot be possible without the support from our lecturers. It is these dedicated lecturers who have infected us by their profound knowledge of the subject matter, boosted our confidence and broadened our horizon on the journey of learning. And it is because of their efforts in guiding us through this long journey that deserves our gratitude and respect. Now, please allow me on behalf of all the graduates to say this to all lecturers here today: "Thank you! Thank you for everything you have done for all of us!" I personally would like to show my gratitude to the following lecturers:  
-Mr Chee Hay Kheong and Ms Tan Mee ling from SAA

Without your continuous support and help, I would not have reach my fullest potential, and I would not be standing here today."
