I'm very glad to know that I have achieved national 5th placing in June 2007 exam, I would like to give my sincere gratitude to my lecturers: James Kwan, Andy Tan and Philip Woo. James is a very responsible and diligent lecturer, strict but helpful. I've almost been overwhelmed by his high pressure lecture when I first join his class, however without going through his rigorous training, I would definitely have not obtain this result. Most importantly, the rock solid technical knowledge he taught would eventually become invaluable in our work, Andy is a talented lecturer that his lecture is highly effective and efficient; moreover he is very helpful and friendly, I will always remember his willingness to help and encourage me during time of need. I'd like to share with you my experience in studying ACCA: Determination does play an immense role in passing ACCA, especially when studying part time. I had sacrificed most entertainment, sleep merely 4 hours per day to study for the past 2 years. This is my 'secret' to pass ACCA.

Mr Chee Hay Keong, I attended Mr Chee paper 2.6 and 3.1 revision class. Mr Chee's experience in the subject matter shone through in the lessons he conducted. He is also a very engaging and humorous lecturer with ability to build rapport with his students. Most importantly for me, as I was unable to attend every revision class due to heavy work commitments, Mr Chee was extremely helpful and approachable in identifying and summarising the key, important topics in a succinct and comprehensible way.

Hi Mr Nageb, I really want to thank you for conducting your lessons in such a humorous and interactive manner. It's really great to be your student, I sort of expected ACCA lessons to be rather stale and muggish, but you changed my perspective of it. I think you've won our respect for being a very devoted teacher as well, conducting so many extra lessons out of your free will and gave us to many notes.
